COVID-19 (coronavirus) Business Continuity Plan

Important Update: COVID-19

GSS remains open and we have been actively monitoring Government and World Health Organisation (WHO) advice regarding COVID-19 (coronavirus). We want to take a calm and balanced approach, while implementing meaningful actions that prioritise the health and wellbeing of our people, customers and the community.

Protecting Our Clients, Our People & Our Community

At GSS we continue to maintain and clean our equipment to the highest standards. Since COVID-19 emerged, we have implemented additional cleaning procedures for our equipment including antibacterial cleans of any surfaces our customers or staff may regularly come into contact with e.g. steering wheels, handles, tool etc.

Our staff are being regularly updated with any additional hygienic tasks suggested by the Australian Government or WHO, and are well supplied with appropriate soaps, wipes, and personal protective equipment.

We are keeping our office and worksites sanitised - utilising extra cleaning methods to help keep our workplace areas safe.

GSS have put in place a ban on NON ESSENTIAL travel, limited meeting sizes, and implemented "Working from Home" options for non-operational roles. We are also encouraging social distancing for employees who continue to serve our clients.
